

Multi-Point Locks

4-Way Model 602

Application

Mortise into the edge of wood or metal doors to provide heavy duty multi-bolt locking (4-way) and latch functionality.

Operation

Equipped with Mul-T-Lock cylinder. 360° key rotation for dead bolt action and additional travel for latch action. Latch is reversible for L.H. and R.H.

Options

Hardware available in white, Brown, Shiny Brass, Nickel Chrome or Gold. Optional fixed handle outside.

Materials

Case and mechanism: Steel. Cylinder protector and bolts: Hardened Steel.

Additional Features

18 mm 'double D' shaped diameter bolts (registered as a design patent). These bolts allow installation in narrow frames and also enable use of front plate (width 22mm) to fit regular steel door types.

Standards

ISI ,UL437.
